

Printing / Reading Instructions

We've provided you with two different formats for printing this Thematic Bible Reading Guide.

Page Format – this is the best format for viewing on an electronic device (phone, tablet, computer). It's also the most simple way to print a hard copy. Print on standard letter size (8-1/2" x 11") paper. You can print in B/W or color, though it looks best in color.

Booklet Format – if you would like to have an actual printed booklet, and your printer has the proper capabilities, then follow the steps below. Again, you can print in B/W or color, though it looks best in color.

1. Select two-sided printing in landscape format.
2. Select "short-edge binding" or its equivalent.
3. Print on standard letter size (8-1/2" x 11-1/2") paper. When your sheets are printed, simply fold them in half and you will wind up with a half-size (5-1/2" x 8-1/2") booklet. *This handy size fits nicely inside most Bibles.*
